

New Books for South Florida Bird Conservation

by James Kushlan & Kirsten Hines

Because South Florida is Different...

"South Florida is a unique and spectacular environment for both birding and gardening, and this is a thorough and enjoyable guide."

-Carl Lewis, Director, Fairchild Tropical Botanic Garden

"Jim Kushlan is a world renowned authority on wading birds, and his passion and comprehensive knowledge grace every page of this book. More generally for human-occupied habitats around the world, Kushlan's text and Hines' photography demonstrate how well-managed landscapes can serve as conservation models while also answering the cultural and esthetic needs of modern society."

-John W. Fitzpatrick, Director, Cornell Laboratory of Ornithology

"A step-by-step guide on how to create a garden that not only benefits birds but increases your enjoyment of your yard, patio, or balcony. No space is too small for helping birds, and this book tells you how to do it."

-Stephen D. Pearson, Director, University of Miami's John C. Gifford Arboretum

"For all South Floridians concerned about vanishing stopover habitat and hoping to contribute to the re-greening of Florida in their own backyards, *Attracting Birds to South Florida Gardens* is essential reading."

-Brian Rapoza, author of *Birding Florida*
